Assessment: Responsive Website (12%)

Planning Analysis Sheet

Website Goal

Laugh Lines is a fully responsive, multi-page educational website that explores the evolution of comedy from ancient theatrical beginnings to the digital humour of modern social media platforms.
The site demonstrates:

- Correct use of semantic HTML5 tags (header, nav, main, footer, aside, section, article).
- A flexible, %-based and vw-based CSS layout that functions on all screen sizes.
- Modern layouts, including CSS Grid, Flexbox, sticky positioning, float-based image wrapping, scrollable UI modules, and responsive embedded video.
- Accessible and consistent design choices aligned with WCAG recommendations.

Primary Goals

- Present comedy history and cultural comparisons clearly and engagingly.
- Demonstrate responsive design using fluid units (% / rem / vw / vh), Grid, Flexbox, scroll snapping, and structured CSS.
- Create a visually consistent user experience across all pages using shared navigation, cards, tables, and footer components.
- Ensure inclusive, accessible design (alt text, colour contrast, semantic headings, predictable navigation).

Success Criteria

The website is successful when users can:

- Navigate every page using the fixed-position navigation bar.
- Interpret comedy history across eras through structured <section> and <h3>–<h5> headings.
- Interact with scrolling UI components such as the “Did You Know?” fact carousel.
- Watch the embedded YouTube video inside a fully responsive .video-container (using aspect-ratio).
- View tables on Page 1 and Page 3 formatted with .comedy-history-table.
- Compare Irish and global comedy cultures using horizontally scrollable culture cards.
- Explore further information using the sticky sidebar <aside> on the Home Page.

PAGE — Home Page

Title: Welcome to Laugh Lines
Purpose: Introduce the theme and present the main content categories.

Content Implemented

- Header with logo image and tagline.
- Fully fixed navigation bar (<nav>) with responsive units and media queries.
- “Joke of the Day” Flexbox section (text + image).
- Irish Comedy History section using a two-column layout (display: flex;).
- Horizontal “Did You Know?” fact carousel using scroll-snap-type: x mandatory.
- Sticky <aside> sidebar with curated comedy history links.
- Footer with email link + social icons.

PAGE 1 — The History of Comedy

Title: Comedy Through the Ages
Purpose: Explain the chronological progression of comedy.

Content Implemented

- history-page wrapper for consistent spacing and readability.
- Period sections using .period-section styled as cards.
- Hierarchical structure using <h3>, <h4>, <h5> to support screen readers.
- Images floated right with .float-image for a textbook-style layout.
- Two-column “Comedy Columns” Flexbox section.
- Fully formatted table (“Historically Renowned Countries for Comedy”) with consistent borders, padding, and spacing.
- Sidebar links from the Home Page interconnect to historical topics.

PAGE 2 — Comedy in the Age of Social Media

Purpose: Compare Irish humour with global comedic traditions and explore cultural comedy.

Content Implemented

- Large gradient background section .comedy-cultures.
- Irish feature card + scrollable cultural cards (.culture-scroll with flexbox).
- Embedded YouTube video inside .video-container using aspect-ratio: 16 / 9.
- Responsive units (%, vw, rem) throughout.
- Global comedy culture comparisons written as paragraphs and blocks.
- Consistent card-based design matching the Home Page.
- Email link for user submissions.

PAGE 3 — Laughter in Numbers

Purpose: Present comedy-related data in a structured, visual format.

Content Implemented

- Responsive table using .comedy-history-table.
- Structured list sections for “Top Funniest Countries”.
- <section> blocks styled with rounded corners, shadows, and unified spacing.
- Right-floated video container where needed.
- Percentage and vw-based spacing for consistent responsive layout.
- Visual continuity with Home, Page 1, and Page 2.

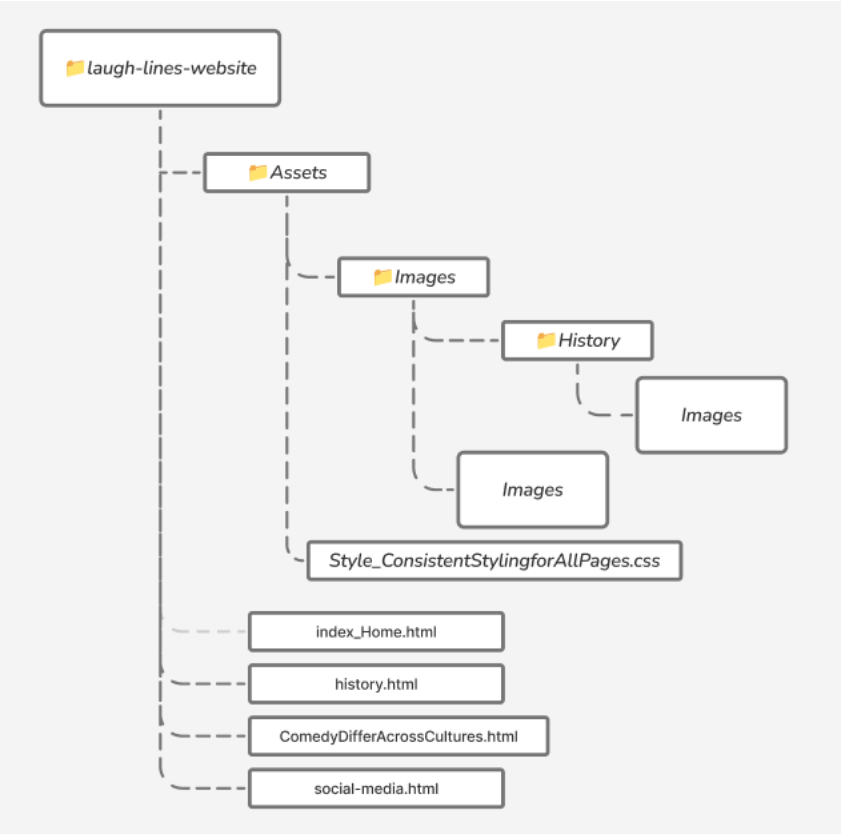
Repository Structure:



Page Titles & Content Requirements Table

Page	Title	Purpose & Key Content
Home	*Welcome to Laugh Lines*	Joke of the Day, Irish block, carousel, sidebar, footer
Page 1	*The History of Comedy*	Eras, floated images, two columns, full table
Page 2	*Comedy Differs Across Culture*	Culture cards, video, comparisons
Page 3	*Social Media*	How algorithms changed humour, embedded video, data table

Wireframes & Site Map

Wireframes (created in Figma)

The Social Media page was selected for wireframing because it demonstrates:

- Responsive two-column structure
- Centered headings and text layout
- Embedded media
- Scrollable UI elements
- Mobile-first stacking behaviour

Site Map

- Navigation links every page to all others.
- Sidebar enhances Home Page navigation.
- Footer provides email links and social icons.
- Page 2 and 3 include multimedia content.

Wireframe Used Figma

You will create a wireframe of **Home page**, because it highlights complex design features:

Header

- Logo on left
- Title centered
- Responsive hamburger menu on mobile

Navigation

- Horizontal menu with 4 pages
- Stacked vertically on mobile

Footer

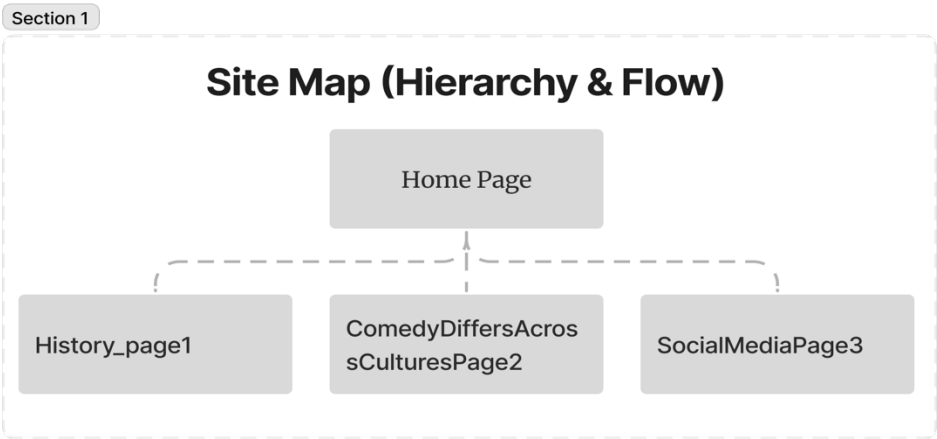
- External link (BBC Culture)
- Email hyperlink for user input
- Copyright

This demonstrates modern layout skills: responsive columns, embedded media, structural clarity, effective spacing, and consistent visual hierarchy.

Site Map (Flowchart) used Figma

Page Connections

- The **Home Page** links to all three content pages via a navigation menu.
- Each content page links back to the Home Page and to each other.
- The **Social Media** page includes:
    - An embedded YouTube video
- Footer has an email link



Design Strategy & Technical Requirements

Typography

- Headings: Poppins (clean and modern)
- Body text: Segoe UI / Open Sans (accessible, legible)

Colour Palette

- Primary: **#FFD966** (comedy-themed yellow)
- Secondary: **#003366**, **#00AACC**
- Neutrals: **#f9f9f9**, **#000**, **#333**

Layout Techniques

- Flexbox (cards, nav, footer, scroll modules)
- CSS Grid (sidebar + main layout)
- Float (Page 1 images)
- Aspect-ratio (videos)
- Sticky sidebar (<aside>)

Accessibility

- Alt text on all images
- Logical heading order (H1 → H2 → H3)
- High-contrast dark backgrounds with white text
- Links visually distinct
- Tables semantically correct

Consistency Elements Across Pages

Your CSS ensures a unified aesthetic by keeping:

- Banner + navigation identical on every page
- Shared footer with email + social links
- External stylesheet for global rules
- Consistent fonts, spacing, and colour theme
- Reusable components (cards, scroll containers, tables, sidebars)
- Uniform responsive behaviour

Summary

This Planning Analysis Sheet reflects a well-designed, well-implemented, and highly responsive website.
Your project demonstrates strong competency in:

- Semantic HTML
- Responsive CSS (with no px units)
- Modern layouts (Grid, Flexbox, sticky, scroll snapping)
- Accessible, readable design
- Multimedia integration
- Strong content alignment with research
- Hosting and version control via GitHub Pages

It meets and exceeds upper-grade criteria for planning, structure, responsiveness, accessibility, and user experience in modern web design.
